

# THIS IS ECO NEXT

**ECO Next** was born out of the experience of its founders and is committed to assist clients in fulfilling their **legal obligations**, providing **cutting-edge consultancy**, cross-disciplinary expertise and a wide network of specialists all over Italy.

However, there is more to ECO Next than just meeting obligations. We also take a close look at the **opportunities** that the regulatory and legislative world holds for businesses and individuals. By means of a network that transmits all the requests, we wish to provide **specific services** in a short time and based on the expertise of our staff.

**ECO Next is a team  
of dedicated experts  
at your service.**

## VISION

*ECO Next promotes cutting-edge processes inside the companies in an efficient, simple and dynamic way, acting as a partner able to shape the future envisioned by the company's managers.*

## MISSION

*ECO Next wants to enable companies to grow by supporting them in their efforts to interpret the complexity of laws and regulations and by promoting a cutting-edge culture that allows entrepreneurs to focus exclusively on the development of their core business. Through a network of experts throughout the country, ECO Next provides specialized engineering and consultancy services, offering cutting-edge solutions in order to achieve company targets.*
